DETAILED ACTION

Allowable Subject Matter

1. Claims 7, 13, 15, and 18-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: although art is known which teaches receiving image data indicating an image region of an image disposed on a substrate and the image region including a visible object and further including coded embedded data forming a uniform background for the visible object, the prior art of record, particularly the Chang and Schuessler inventions, fails to teach, or fairly suggest either alone or in combination thereof, a method wherein the coded embedded data is decoded to produce location data indicating the location of the visible object in the image.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
